**RE: Annual 47 C.F.R. § 64.2009(e) CPNI Certification
Covering Calendar Year 2013
EB Docket No. 06-36
Electronic Communications of West Virginia, Inc.
499 Filer ID 812401 / FRN 0006235238**

Dear Ms. Dortch:

Electronic Communications of West Virginia, Inc., by its attorneys and pursuant to Section 64.2009(e) of the Commission's rules, hereby submits its 2013 CPNI Certification and Accompanying Statement.

If there are any questions regarding this submission, please contact the undersigned.

Very truly yours,

A handwritten signature in blue ink that reads "Katherine Patsas Nevitt". The signature is fluid and cursive, with the first name "Katherine" being the most prominent.

Katherine Patsas Nevitt

CERTIFICATION

I, Tim Ford, hereby certify that I am an officer of the company named above, and acting as an agent of the company, that I have personal knowledge that the company has established operating procedures effective during the calendar year 2013 that are adequate to ensure compliance with the Customer Proprietary Network Information rules set forth in 47 C.F.R. §§ 64.2001 et seq. of the rules of the Federal Communications Commission.

Attached to this certification is an accompanying statement that (i) explains how the company's procedures ensure that the company is in compliance with the requirements set forth in 47 C.F.R. §§ 64.2001 et seq. of the rules, (ii) explains any actions taken against data brokers during the past year, (iii) summarizes all customer complaints received in the past year concerning the unauthorized release of CPNI and (iv) reports information known to the company regarding tactics pretexters may be using to attempt access to CPNI.

The company represents and warrants that the above certification is consistent with 47. C.F.R. § 1.17 which requires truthful and accurate statements to the Commission. The company also acknowledges that false statements and misrepresentations to the Commission are punishable under Title 18 of the U.S. Code and may subject it to enforcement action.

Name: Tim Ford

Title: President

STATEMENT

Electronic Communications of West Virginia, Inc. ("Carrier") is **not interconnected to the Public Switch Telephone Network ("PSTN")**, and consequently does not have the type of confidential and proprietary information that the Federal Communication Commission ("Commission") customer proprietary network information ("CPNI") regulations are designed to protect.

Carrier offers only two-way dispatch service, where communications are between operators of mobiles and portables in the field and a dispatcher at a console in an office. Carrier's facilities are used by business customers, not by consumers, and fill a very specific, niche communications requirement for one-to-many mobile transmissions. They involve business, not personal, communications and, by their nature, are far from private. Therefore, there is little or no likelihood that Carrier will ever have information that requires CPNI protection.

Nevertheless, and out of an abundance of caution, Carrier has established the operating procedures detailed below that ensure compliance with the Commission's regulations regarding the protection of CPNI:

- Carrier has adopted a manual and keeps it updated with FCC CPNI rule revisions, and has designated a CPNI compliance officer to oversee CPNI training and implementation.
- Carrier continually educates and trains its employees regarding the appropriate use of CPNI. Carrier has established disciplinary procedures should an employee violate the CPNI procedures established by Carrier.
- Carrier has implemented a system whereby the status of a customer's CPNI approval can be determined prior to the use of CPNI.
- Carrier maintains a record of its and its affiliates' sales and marketing campaigns that use its customers' CPNI. Carrier also maintains a record of any and all instances where CPNI was disclosed or provided to third parties, or where third parties were allowed access to CPNI. The record includes a description of each campaign, the specific CPNI that was used in the campaign, and what products and services were offered as a part of the campaign.
- Carrier has established a supervisory review process regarding compliance with the CPNI rules with respect to outbound marketing situations and maintains records of carrier compliance for a minimum period of one year. Specifically, Carrier's sales personnel obtain supervisory approval of any proposed outbound marketing request for customer approval regarding its CPNI, and a process ensures that opt-out elections are recorded and followed.
- Carrier has established procedures to notify law enforcement and customer(s) of unauthorized disclosure of CPNI in accordance with FCC timelines.
- Carrier took the following actions against data brokers in 2013, including proceedings instituted or petitions filed by Carrier at a state commission, in the court system, or at the Federal Communications Commission: **None**
- The following is information Carrier has with respect to the processes pretexters are using to attempt to access CPNI, and [if any] what steps carriers are taking to protect CPNI: **Carrier has determined that no pretexter has attempted to access CPNI on Carrier's system.**
- The following is a summary of all customer complaints received in 2013 regarding the unauthorized release of CPNI:
 - Number of customer complaints Carrier received in 2013 related to unauthorized access to CPNI, or unauthorized disclosure of CPNI: **None**
 - Category of complaint:
 - **0** Number of instances of improper access by employees
 - **0** Number of instances of improper disclosure to individuals not authorized to receive the information
 - **0** Number of instances of improper access to online information by individuals not authorized to view the information
 - **0** Number of other instances of improper access or disclosure
 - Description of instances of improper access or disclosure: **None**
